## **GLOBAL EXPRESSION OF INTEREST UNDER INTERNATIONAL COMPETITIVE BIDDING (ICB) FOR DIVING SERVICES, JACKET INSPECTION & FREE SPAN RECTIFICATION AT RAVVA AND CB/OS-2 BLOCKS**

Cairn India Ltd (CIL) is the Operator of Ravva and CB/OS-2 blocks located on the East Coast and West Coast of India on behalf of the Joint Ventures between ONGC Limited, Ravva Oil Singapore (ROS), Videocon Industries Ltd (VIL), Tata Petrodyne Limited (TPL) and Cairn India Ltd. (CIL).

CIL intends to avail Diving services, Jacket Inspection & Free Span Rectification from reputed diving contractors for **Four (4) Years** on call out basis for carrying out various Subsea and surface activities in the offshore to ensure the offshore assets are maintained in operational standards and as per regulatory requirements.

Diving services shall encompass the Jacket Inspections, Routine Maintenance and Repair of Platforms, Subsea pipelines, Risers, CALM buoy and associated subsea structures and equipment at both CB/OS-2 (located Hazira, Surat, Gujarat) and Ravva (located S.Yanam, Andhra Pradesh) Offshore blocks. The Contractor should be able to provide certified personnel and equipment for the above services.

All diving and associated procedures and equipment's shall be minimally, in accordance with the IMCA / IACS guidelines.

### **Dive team and Equipment:**

The offshore installation in the Ravva Field (Platforms, Jackets, CALM Buoy, Underwater Pipelines Etc.), especially the Oil Offloading system is required to be maintained by a diving team. Diving team is required to ensure the availability of the critical equipment through which the entire crude produced in the field is evacuated. Apart from routine maintenance, the dive team is required to carry out minor subsea pipeline intervention as a part of the dive team scope. For this purpose a complete set of diving equipment and diving personnel is required to be mobilized during the fair weather window (Oct-Apr) for the maintenance / inspections.

The offshore installation in the CB/OS-2 Field (Platform, Jackets, Underwater pipelines Etc.) are being inspected as per routine re-certification programme to ensure the integrity of the Asset. Apart from that free span rectification is required to be carried out based on Free span survey reports along with routine subsea maintenance of pipelines. Surface currents in this area are 6-8 knots and under water currents are 2-4 knots with nil visibility.

### **Company is seeking IMCA Certified Contractors through EOI process.**

CIL on behalf of its joint venture partners invites reputed Contractors with demonstrated HSE performance to express their interest to participate in pre-qualification as bidders and to participate in competitive bidding process for the Diving Services at Ravva and CB/OS-2 Block.

In addition to the above requested documentation, bidders shall also submit credentials to support the specific qualification criteria.
