Head of Office, Integrated Regional Office, Jaipur, Ministry of Env., Forest and Climate Change, A-209 & 218, Aranya Bhawan, Mahatma Gandhi Road, Jhalana Institutional Area, Jaipur - 304002, Rajasthan

- Sub: Six-monthly Status Report on progressive compliance to Environmental Clearance (EC) conditions for Onshore Oil & Gas Exploration & Appraisal and Early Production in RJ-ONHP-2017/2 Block located at District Barmer & Jalore, State Rajasthan.
- Ref: EC letter no. F.1(4)/ SEIAA/ SEAC-Raj/ Sectt/ Project/ Cat.1(b)B2(19123)/ 2019-20 dated 25.06.2021

Dear Sir,

We are pleased to submit a point wise compliance status report of the conditions stipulated in the Environmental Clearance accorded by SEIAA, Rajasthan for the RJ-ONHP-2017/2 Block for the period April 2024 to September 2024.

Thanking you,

Yours faithfully, For Vedanta Limited (Div.: Cairn Oil & Gas)

Dilip Kun DGM-Environmen

Enclosures: As above

SIX-MONTHLY REPORT ON PROGRESSIVE COMPLIANCE TO ENVIRONMENTAL CLEARANCE CONDITIONS

Project name: Onshore Oil & Gas Exploration, Appraisal and Early Production		
	2017/2 Hydrocarbon block, falling in Dist Barmer and Jalore (Raj.).	
Environmental Clearance	SEIAA/SEAC-Raj./Sectt/Project/Cat.1(b)B2(19123)/2019-20 dated 25.06.2021	
letter no.:		
Reporting period:	April 2024 to September 2024	
Project activity during	No Exploratory & Appraisal well drilling and Early Production activities carried	
reporting period:	out in the block during this reporting period.	
Overall status of activities	s Project defined in EC:	
w.r.t. project defined in	 Drilling of Exploratory & Appraisal Wells: 64 Nos. 	
EC: • Early Production: 24000 BOPD Crude oil and 3.6 MMSCFD associated I		
gas.		
	Overall Status:	
	No Exploratory & Appraisal well drilling and Early Production activities carried	
	out in the block till date.	

S.	EC Conditions	Compliance Status
No.		
Ι.	Statutory Compliance	
i.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non- forest purpose involved in the project.	No drilling is proposed in forest land.
ii.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	Not applicable
III.	The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report. (in case of the presence of Schedule-I species in the study area)	Wildlife conservation plan has been prepared and submitted to PCCF Wildlife for approval vide letter No. RJ-ONHP-2017/WL/1, dated 06.12.2019.
iv.	The Project proponent shall obtain Consent to Establish/ Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/Committee.	Consent to Establish under Section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under Section 21 (4) of Air (Prevention & Control of Pollution) Act, 1981 has been obtained from Rajasthan State Pollution Control Board, File no. F(HDF)/Jodhpur (Jodhpur)/6182(1)/2022- 2023/5179-5181 validity – 13/12/2022 to 30/11/2027. CTO will be obtained for any future drilling activity.
٧.	Necessary authorization required under the Hazardous and Other wastes (Management and Trans-Boundary Movement) Rules. 2016, Solid waste Management	· · ·

No. Rules.2016 shall be obtained and the provisions contained in the Rules shall be strictly adhered to Not applicable vi. The project proponent shall obtain and adhere to statutory clearance under the coastal Regulation Zone Notification, 2011, as applicable. Not applicable II. Air quality monitoring and preservation To be complied with i. The National Ambient Air Quality Emission Standard Issue by Ministry vide GSR No. 826(E) dated lifth November, 2009 shall be complied with To be complied with iii. To control source and the fugitive emission, suitable pollution devices shall be installed to meet the prescribed norms and/or the NAAOS.Sulphur content should not exceed 0.5% on the coal for use in coal fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous Emission shall be dispersed through stack of adequate height as per CPCB/SPCB guidelines', To be complied with iii. The locations of ambient air quality monitoring station shall be decided in consultation with the State pollution Control Board (SPCB) and it shall be ensured that at least one stations each is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated. To be complied with iv. Ambient air quality shall be monitored at the nearest human Settlement as per the National Ambient Air Quality Emission Standard Issued by the Ministry vide G S R No 826(E) dated lift. November 2009 for PN10, PM2 5, SO2' NOX, CO, CH4, HC, Non-methane HC etct' Not applicable Not applicabl	S.	EC Conditions	Compliance Status
contained in the Rules shall be strictly adhered to Not applicable vi. The project proponent shall obtain and adhere to statutory clearance under the coastal Regulation Zone Not applicable II. Air quality monitoring and preservation To be complied with issue by Ministry vide GSR No. 826(E) dated l6th November, 2009 shall be complied with ii. To control source and the fugitive emission, suitable pollution devices shall be installed to meet the prescribed norms and/or the NAAQS. Sulphur content should not exceed 0.5% oin the coal for use in coal fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous Emission shall be dispersed through stack of adequate height as per CPCB/SPCB guidelines', iii. The locations of ambient air quality monitoring station shall be descred through stack of adequate that at least one stations each is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated. To be complied with iv. Ambient air quality shall be monitored at the nearest human Settlement as per the National Ambient Air Quality Emission Standard issued by the Ministry vide G S N No 326(E) dated leth November 2009 for PN10, PM2 5, SO2' NOX, CO, CH4, PC, Non-methane HC etc' Not applicable vi. Project proponent also to ensure trapping/storing of CO; generated, if any, during the process of handling. Not applicable vi. 	Prior permission shall be obtained from the concerned	
	regulatory authority/ CGWA in this regard.	
iv.	The company shall construct the garland drain all	To be complied with
	around the drilling site to prevent runoff of any oil	
	containing waste into the nearby water bodies.	
	Separate drainage system shall be created for oil	
	contaminated and non-oil contaminated. Effluent	
	shall be properly treated wastewater shall conform to	
	CPCB standard.	
۷.	Drill cuttings separated from drilling fluid shall be	To be complied with
	adequately washed and disposed in HDPE lined pit.	
	Waste mud shall be tested for hazardous	
	contaminants and disposed according to HWMH	
	Rules, 2016. No effluent /drilling mud/drill cutting	
	shall be discharged/disposed off into nearby surface water bodies. The company shall comply with the	
	guidelines for disposal of solid waste, drill cutting and	
	drilling fluids for onshore drilling operation notified	
	vide GSR.546(E) dated 30 th August, 2005	
IV.	Noise monitoring and preservation	
i.	The company shall make all arrangements for control	To be complied with
	of noise from the drilling activity. Acoustic enclosure	
	shall be provided to DG set for controlling the noise	
	pollution.	
ii.	The overall noise levels in and around the plant area	Noted for compliance
	shall be kept well within the standards by providing	
	noise control measures including acoustic hoods,	
	silencers, enclosures etc, on all sources of noise	
	generation.	
iii.	The ambient noise levels should conform to the	Noted for compliance
	standards prescribed under E(P)A Rules, 1986 viz, 75	
V	dB(A) during daytime and 70 dB(A) during night-time.	
V. i.	Energy conservation measures The energy sources for lighting purposes shall	To be complied with
1.	preferably be LED based	
VI.	Waste management	
i.	Oil spillage prevention and mitigation scheme shall be	To be complied with
	prepared. In case of oil spillage/ contamination action	
	plan shall be prepared to clean the site by adopting	
	proven technology, The recyclable waste (oil sludge)	
	and spent oil shall be disposed of to the authorized	
	recyclers. Hazardous chemical shall be stored in tanks,	
	tank farms, drums, carboys etc. Flame arresters shall	
	be provided on tank farm and the solvent transfer	
	through pumps.	
ii.	Oil content in the drill cuttings shall be monitored by	Noted for compliance
	some Authorized agency and report shall be sent to	
	the Ministry's Regional Office.	
VII.	Safety, public hearing and human health issues	

S. No.	EC Conditions	Compliance Status
i.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	To be complied with
ii.	Blow Out Preventer system shall be installed to prevent well blowouts during drilling operations. BOP measures during drilling shall focus on maintaining well bore hydrostatic pressure by proper pre-well planning and drilling fluid logging etc.	Not applicable
iii.	Company shall prepare operating manual in respect of all activities, which would cover all safety & environment related issues and measures to be taken for protection. One set of environmental manuals shall be made available at the drilling site/ project site. Awareness shall be created at each level of the management. All the schedules and results of environmental monitoring shall be available at the project site office. Remote monitoring of site should be done.	
iv.	On completion of drilling. the company has to plug the drilled wells safely and obtain certificate from environment safety angle from the concerned authority.	To be complied with
v.	The company shall take measures after completion of drilling process by well plugging and secured enclosures, decommissioning of rig upon abandonment of the well and drilling site shall be restored the area in original condition. In the event that no economic quantity of hydrocarbon is found a full abonnement plan shall be implemented for the drilling site in accordance with the applicable Indian Petroleum Regulations.	To be complied with
vi.	The Company shall take necessary measures to prevent fire hazards containing oil spill and soil remediation as needed. Possibility of using ground flare shall be explored. At the place of ground flaring, the overhead flaring stack with knockout drums shall be installed to minimize gaseous emissions during.	To be complied with
vii.	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Preemployment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.	Noted
viii	The company shall develop a contingency plan for H2S release including all necessary aspects from evacuation to resumption of normal operations. The workers shalt be provided with personal H2S detectors in locations of high risk of exposure along with self-containing breathing apparatus.	To be complied with
ix	provision shill be made for the housing of construction labour within the site with all necessary infrastructure	Not applicable

S. No.	EC Conditions	Compliance Status
	and facilities such as fuel for cooking, mobile toiles. mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Workers engaged for site preparation/ civil work are from the nearby areas.
x	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	To be complied with
xi	The Company shall carry out long term subsidence study by collecting base line data before initiating drilling operation till the project lasts. The data so collected shall be submitted six monthly to the Ministry and Regional Office.	To be complied with
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions contained in this Ministry's IOM vide F.No.22-65/2017-1A III dated I st May 2018, as applicable, regarding Corporate Environment Responsibility.	Noted for compliance
ii.	The company shall have a well laid down environment policy duly approve by the Board of Directors. The environment policy should prescribe for standards operating procedures to have proper checks and balances and to bring into focus any infringements/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental/ forest/ wildlife norms/ conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MOEF& CC as a part of six-monthly report.	Noted
iii.	A separate environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	To be complied with.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.	Noted
v.	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.	To be complied with
Х.	Miscellaneous	
i.	The project proponent shall make public the environmental clearance granted for their project	Complied.

S.	EC Conditions	Compliance Status

	along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within	Details of Environmental Clearance has been advertised in two newspapers i.e., "Rajasthan Patrika" and "Hindustan Times" dated on 04.09.2022.
	seven days and in addition this shall also be displayed in the project proponent's website permanently.	
ii.	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	Complied. Copies of the environmental clearance has been submitted to the Heads of local bodies, Panchayat and Municipal Bodies in addition to the relevant government offices vide letter dated 17 th February 2023.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Noted for compliance
iv.	The project proponent shall monitor the criteria pollutants level namely, PM 10, S02, NOX (ambient levels as well as stack emissions) or criteria sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.	Noted for compliance
v.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest, and Climate Change at environment clearance portal.	Noted for compliance
vi.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and out on the website of the company.	Noted for compliance
vii.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Noted for compliance
viii.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted
ix.	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.	Noted
x.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment Forest and Climate Change (MoEF&CC).	Noted
